Mousetrapper®

Mousetrapper Alpha

Mousetrapper Alpha is the world's first centred ergonomic pointing device with a full-sized, integrated keyboard. Alpha has a total of 19 programmable keys, making it our most dynamic Mousetrapper to date.

Benefits of Alpha

Mousetrapper Alpha is our most comprehensive product, which combines the benefits of a centred pointing device with the user-friendliness of a full-sized keyboard. Alpha connects to your computer via Bluetooth or USB cable and has a long battery life, so you can enjoy the flexibility of working wirelessly. By combining a keyboard and an ergonomic pointing device, you will never need to think about which keyboard is suitable for your Mousetrapper or adjust the gap between the pointing device and keyboard. Mousetrapper Alpha is the perfect product for those who want to reduce pain and improve wellbeing without having to compromise efficiency or flexibility. Alpha is also made from recycled plastic.
