Type Midi

A compact keyboard complete with features. Are you looking for a full-sized keyboard in a compact format? Then Type Midi is the perfect solution. Ergonomic features, numeric keys, wireless, and made from recycled plastic. What more can you ask of a keyboard?

Benefits of Type Midi

If you're frequently on the move and don't what to compromise on features such as numeric keys then Type Midi is the right choice for you. An ergonomic, wireless keyboard with a powerful battery that keeps your workflow high throughout the day.

Type Midi is designed in Sweden, made from recycled plastic, and developed to provide you with an ergonomic hand position while working. With the foldable support legs, you can easily adjust the height both at the front and back, by 5 or 8 mm, to find your ideal hand position.

Our mission has always been to manufacture well-designed ergonomic products, and Type Midi is no exception!
