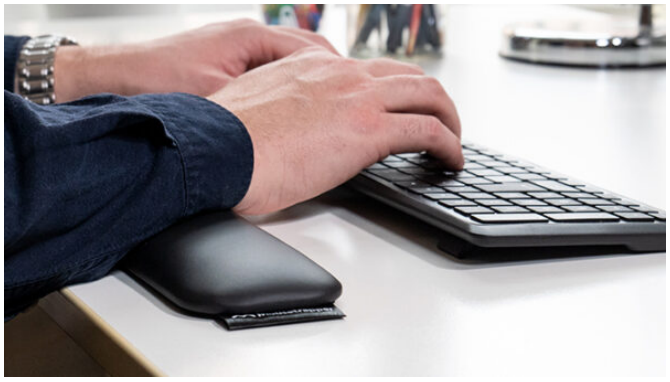
Mousetrapper®

Wrist Support

The Wrist Support helps address one of the most basic ergonomic challenges – support for your forearms. Whether you use it with a Mousetrapper or on its own. The soft cushion helps relieve strain in your forearms, shoulders, and neck, and its design promotes a naturally centered and relaxed working position.

Benefits of Wrist Support

The Wrist Support is a convenient accessory for elevating your ergonomics. The soft cushion helps keep your hands in a more ergonomic position. A basic rule to remember is that your hands and fingers should slightly angle downwards towards the keyboard to reduce strain as much as possible. But the Wrist Support does more than just relieve strain in your hands. It's designed to promote a naturally centered and more relaxed working posture, helping reduce strain in your forearms, shoulders, and neck.



The small version is designed to fit perfectly with the Mousetrapper Alpha, Type Mini and laptops, while the large version is ideal for the Mousetrapper Advance 2.0, Delta, Lite, and Prime models, Type and Type Midi, as well as for desktop users.

The Wrist Support is made from high-quality materials and is covered in black faux leather, making it easy to clean and disinfect.

Facts

Small

- Width: 12.6 inch
- Depth: 2.8 inch
- Height: 0.8 inch
- Weight: 0.2 lbs
- Product code: TB601

Large

- Width: 18.7 inch
- Depth: 2.8 inch
- Height: 0.8 inch
- Weight: 0.3 lbs
- Product code: TB602
