

The Wellness Mouse

Mousetrapper is the mouse alternative that prevents RSI and other problems that can occur when you use a conventional mouse. Because Mousetrapper is positioned centrally in front of the keyboard it encourages an ergonomically healthy position that keeps your arms close to your body and your hands near the keyboard.

Why Mousetrapper?

Most people are helped

Changing to a Mousetrapper makes a difference. The vast majority of those who try out one of our products continue to use it – eight out of ten say they find it beneficial!

Easy to get started

Our centered mices have been developed to reduce strain on your hands, arms, shoulders and neck. Getting started and learning to use them is easy.

Customise the buttons as you like

With our software MT Keys, you can choose which functions the buttons should have, so you can customise them according to your needs!

Developed, designed and manufactured in Sweden

We set high standards in terms of both ergonomic features and attractive, timeless design. Everything from design and development to production and quality control takes place in our headquarters outside Stockholm.

More than 30 years of experience

We know what we are talking about – we have been developing ergonomic mouse alternatives for over 30 years. Our Mousetrappers have a 2-year guarantee but have a considerably longer lifespan.

Which Mousetrapper suits you?

Advance 2.0

Product description

Developed to give you all the ergonomic benefits. With 6 programmable buttons, you can easily customize it to suit your needs for a more efficient workflow.

Buttons (programmable)

6 (YES)

Product code

MT112

Advance 2.0+

The upgraded version with the same ergonomic benefits, but with 2 extra buttons for greater flexibility and customization.

8 (YES)

MT122

Alpha

A unique product that combines an ergonomically centred mouse and keyboard in one. It also features 19 programmable buttons for maximum flexibility and efficiency. You can also work wirelessly via Bluetooth.

19 (YES)

MT117

Core Protect

Based on Advance 2.0+ and adds an extra layer of security for organizations where information security is critical. Developed in close collaboration with leading organizations in security-classified environments.

8 (YES)

MT124

Lite

Designed for those who need only the essential functions but still want the same ergonomic benefits. Available in two colours.

4 (NO)

MT114 (titanium grey)
MT115 (red)

Prime

Just like Advance 2.0+, Prime features 8 programmable buttons and also allows you to work wirelessly via Bluetooth.

8 (YES)

MT123

Delta

Unlike the others, it is controlled with a rollerbar. With 7 programmable buttons and a separate scroll wheel, you can work efficiently. Available in two colours and sizes.

7 (YES)

Which Accessory Suits You?

Armrest Asymmetric

Product description

Support your forearms with an asymmetrical forearm support and reduce strain on your arms, shoulders and neck. Its shape creates a naturally centred and relaxed working position in front of the computer. Fits tabletops 15–40 mm thick.

Product code

TB215

Armrest Symmetric

Support your forearms with a symmetrical forearm support and reduce strain on your arms, shoulders and neck. Its shape creates a naturally centred and relaxed working position in front of the computer. Fits tabletops 15–40 mm thick.

TB216

Armrest Split

Support your forearms individually according to your preferred position and reduce muscle tension in your arms, shoulders and neck. Fits tabletops 15–40 mm thick.

TB217

Armrest Dynamic

Designed with flexible joints that follow each arm's movement, making your arms feel weightless. By relieving the weight from your forearms, it immediately reduces tension in your arms, shoulders and neck. Can be used individually or as a pair. Fits tabletops 15–40 mm thick.

TB220

Active

The Active standing mat helps reduce fatigue and foot pain while promoting good posture when standing and working. Size 74x45 cm.

TB401

Active XL

The Active XL standing mat helps reduce fatigue and foot pain while promoting good posture when standing and working. Size 85x55 cm.

TB407

Which Accessory Suits You?

Laptop Stand

Product description

Our laptop stand helps keep your head upright in an ergonomic position and your eyes at the correct height.

Product code

TB402

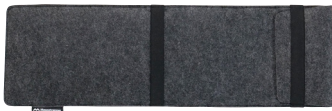

Laptop Stand Pro

With the Pro model, you get more than 20 different height and angle settings to choose from, making it easy to find the perfect position.

TB442

Sleeve

A soft case designed to protect our ergonomic mice and keyboards. It can be folded to fit different products and is made from recycled PET.

TB230

Standfriend

An excellent solution for standing while working, even if you do not have a sit-stand desk. Standfriend allows you to stand at almost any table, making it ideal for a varied working posture. Alternating between sitting and standing helps you feel better and stay energized. Its smart design makes it easy to find the right working height. It is easy to set up, folds away in just a few steps and takes up very little space when not in use.

TB501

Table Hook

A compact, portable desk hook that easily folds out and attaches to the edge of a desk. Perfect for hanging your Active standing mat, bag, backpack or anything else you want within easy reach. Whether you're at the office or in a café.

TB408

Wrist Support Small

A simpler type of forearm support that is easier to bring with you when you're on the move. Fits Mousetrapper Alpha, Type Mini and laptops.

TB601

Wrist Support Large

A simpler type of forearm support that is easier to bring with you when you're on the move. Fits all Mousetrapper products and keyboards.

TB602
